-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Objections***

1. Claims 1, 16 and 17 are objected to because of the following informalities:

The notation "Y cannot be -CH<sub>2</sub>CH<sub>2</sub>-" in item (v) should be deleted because the Y is defined as -OC(=O)- or -OCH<sub>2</sub>-.

It is noted that there is an inconsistent to separate between notations and between items. Between notations should be separated by ",", and between items should be separated by ";", respectively.

In Claim 1, the claim should end with "." not ";".

. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3 and 13 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 2000-17264.

The reference discloses an antiferroelectric liquid crystal composition comprising a chemical formula 1, which contains five-membered heterocyclic ring. The five-membered ring compound is represented by formula (I). The reference compounds are shown in Tables 1 and 2, particularly, thiazole compounds 31-34 and 36 in Table 2, which anticipates the present formula (I) under item (iv). If not anticipated because they are not exemplified by the reference, it would have been obvious to those skilled in the art to utilize the known method (scheme A and B in US 5,868,960) and modify the reacting materials to arrive at the claimed compounds.

#### ***Response to Arguments***

5. Applicant's arguments filed 2/14/05, with respect to the rejections of claims 1-7 under Krause and Claim 1 under CA references have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground of rejection is made in view of JP 2000-17264.

#### ***Allowable Subject Matter***

6. Claims 4-7 and 14-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shean C. Wu whose telephone number is 571-272-1393. The examiner can normally be reached on 9:30 AM to 6:00 PM.
